**IF YOU ARE NEW TO DOTERRA YOU CAN PURCHASE ONE OF THE MANY DOTERRA KITS FOR AS LITTLE AS 35\$ / 20€ / £20 / 50 AUD INCLUDING A FREE WEBSHOP, BACK OFFICE AND NO MONTHLY FEE**

If you have arrived at this website you are likely to have been searching for information about doTERRA. Everyone at some point is new to this company so learning more about how it works is par the course. This page will hopefully allow the reader to internalize the information and allow them to make an educated decision weather this company is a fit for them. Sometimes the decision making process takes a short time and sometimes, like some of my members as long as three years. So, if you are unsure if doTERRA is for you, download our doTERRA essential oils guide and receive all the information you will need.

### **Is there a hard sale?**

I personally don't like to force people to buy products or into my business, if that is even possible. I like the process to be organic so the prospect is comfortable with their decision and then join when they feel the time is right.

However, I do like to ask them to ask themselves why they are joining doTERRA. This information helps me to know what type of help and support they want and require.

# WHAT DOES THIS MEAN?

BY STEVEN JACKSON

If you are not really into running a business, you don't need me to explain how to share online and to do social media marketing. Also, you may not want me to arrange business calls with you, if you just want to keep things low key. On the other hand, if you are ready to build a business, you may want me to be in close contact and share my knowledge and skills.

## So, ask yourself:

1. Do you want to run a business?
2. Do you just want to be a wholesale customer?
3. Or simply a retail customer?

All of these questions are strictly related to what type of future relationship you want with your sponsor and doTERRA as a company. There is no wrong answers and overtime your answers may change as and when needed. For example, you become a wholesale customer because you only want to receive the oils at wholesale. Then later think that running a business would be a great idea.

## What do you do?

You can simply upgrade for free

Always remember doTERRA is a journey, so where you see yourself today may not be the same place in the future.

## WHY ESSENTIAL OILS AND WHY DOTERRA?

**This is a great question that I am asked all the time.**

The fact is, essential oils are booming and so selling doTERRA online and from home is also making money for people for the first time. As for doTERRA, the main reason I feel they are worth writing about is that they are a trusted and reputable company with a track record.

Beyond doTERRA's high quality and powerful product line, they are also an open and transparent company, which has brought direct sales into a new enlightened era. Many would argue that they have created a new standard of care for the industry forcing other direct sales companies to full inline.

### **A short history of doTERRA**

doTERRA was started in 2008 and offers a vast range of doTERRA therapeutic grade essential oils based products from single and blended essential oils, skin care products, weight loss products and supplements. Their products are sold by doTERRA essential oils representative on a direct sales format to a global customer base.

Their essential oils are the highest quality possible and made from natural elements that can be found in parts of plants, barks and trees. This is what gives them their fragrance as well as their immunity properties, which is the root of their wellness capabilities for humans.

## A SHORT HISTORY OF DOTERRA - CONTINUES

doTERRA oils are available globally with some exception. However, their main and strongest presence in North America, Europe, Oceania, Latin America, Asia and South Africa. In addition, doTERRA is striving to add new languages, well at least the major ones and even some of the small ones such as Finnish.

If you would like to know the status of your country in regards to doTERRA add your name, email address and message on the form below and I will get back to you asap.

It is quite amazing how much of a impact doTERRA has had on the world. This goes beyond the benefits of the oils and the strength of the business opportunity. doTERRA is sourcing their oils from all over the world, which in no small part allows individuals in these countries to send their children to school and live a normal life. The planter and harvesters enjoy a regular income even when they are not working to grow the rare product for the essential oils.

It is quite understandable that you are interested in knowing more about doTERRA and maybe reading their catalog. If this is the case, click on the download button below and see what all the fuss is about.

### **What are the benefits of using essential oils?**

Essential oils have been trending for some years, because I believe we are beginning to understand the need for a healthier alternative to traditional medication for ailments. However, the history of essential oils goes way back to biblical time and through the centuries until the present day.

An essential oil is a highly concentrated natural substance made from seeds, flowers, fruit, leaves, stems and roots found in nature. They are produced via processes such as steam-distillation or cold-pressed extraction. Through this process all the natural therapeutic aspects of the plants are transferred into the oils which is past onto us as humans.

# BENEFITS FOR USING ESSENTIAL OILS

---

**Below I have added some of my favorite benefits for using essential oils**

- Essential oils are 100% natural, which means that there are no side effects.
  - You only need to use a few drops to gain the full benefits of the oils
  - Essential oils work on cellular level
  - Essential oils are not medicine and are not a cure, but they do support us in a natural way
  - Essential oils are very affordable and cost effective (A small bottle seems expensive, but you only need a few drop to feel the power and benefits of essential oils)
  - Once you have a small collection of oils you can gain the benefits immediately
-

# DOTERRA CHART OF THE USES OF OILS

There are three main ways of using therapeutic grade essential oils with doTERRA. There is aromatically, topically and internally. Below I have layout a brief overview of these three methods.

## **Aromatically (with a diffuser)**

Our sense of smell is an aspect of our being. This evokes many physiological, mental and emotional responses. Essential oils used in this way promotes many positive feeling that help induce uplifting or invigorating effects, while others are more calming.

## **Topically (on the Skin)**

I am always amazed how effective essential oils are when used topically. Simply by rubbing the appropriate oils will penetrate the skin and give the user the full benefits .

Essential oils easily penetrate the skin for localized benefits, making topical (on the skin) application a great way to experience the benefits of essential oils. This is why doTERRA works to create potent essential oils that are powerful enough to promote healthy-looking skin, yet gentle enough to use on a daily basis.

When used topically, essential oils can improve complexion and skin tone. They can also be used as part of a soothing massage. Before topical application, be sure to follow all label recommendations and dilution instructions.

## **Internally**

When ingested, essential oils directly enter the blood stream via the gastrointestinal tract, where they are transported throughout the rest of the body. Essential oils are readily transported to all organs of the body, including the brain.

# MY DOTERRA ESSENTIAL OIL REFERENCE GUIDE

When a new member joins my business, the first thing that they ask is, do I need to know about all the oils? The quick answer is, "NO". Overtime, new members learn about the oils through daily use and natural investigation. I do suggest that a new rep do learns about the three main oils which are wild orange, peppermint and lavender. These are probably the most popular and useful oils for someone new to doTERRA and essential oils.

**Wild orange:** Wild orange is cold pressed from the peel and has become one of the most popular doTERRA oils and best-selling essential oils. Wild orange has an energizing aroma and many health and wellness benefits. Diffusing Wild Orange will energize and uplift the mind and body while purifying the air as well as enhancing any essential oil blend with a fresh, sweet, refreshing aroma.

**Peppermint:** doTERRA peppermint oil has a high menthol content which sets it apart from others when it comes to quality, making it one of the best-selling doTERRA oil. Frequently used in toothpaste and chewing gum for oral hygiene, Peppermint also helps alleviate occasional stomach upset and promotes healthy respiratory function.

**Lavender:** doTERRA Lavender oil has been used and cherished for centuries for its unmistakable aroma and myriad benefits. In ancient times, the Egyptians and Romans used Lavender for bathing, relaxation, cooking, and as a perfume. Today, it is widely used for its calming and relaxing qualities which continues to be Lavender's most notable qualities.
